

**CITY OF RANCHO SANTA MARGARITA
MEMBER OF THE CITY COUNCIL**

MIKE SAFRANSKI

AGE: 54

OCCUPATION: Director, Trabuco Canyon Water District; Facility Manager

The City of Rancho Santa Margarita is fortunate to have been formed under the guidance of volunteers, city council members and staff who have demonstrated commitment, hard work and strong support for the entire community. Over the past twelve years, I have shown my strong dedication to this community as a proven leader and would like to continue my effort as your next city council member.

As Director of the Trabuco Canyon Water District for over 9 years, I have represented the community on important water issues. I have served on a large, local homeowners association and have been active in resolving many important, community related issues, including a new traffic signal for Robinson Elementary. Prior to the formal incorporation of RSM, I was instrumental in seeing that the Plano Trabuco communities were included within the new city boundaries.

I continue to take an active role in local chamber and business council activities in order to protect business interests and improve our overall quality of life.

I believe that community involvement and volunteerism provide a strong foundation for our city's future. I ask for your vote in November so I can continue the tradition of leadership, passion and commitment our Rancho Santa Margarita residents deserve.
